E-mail Address: \_\_\_\_\_

Phone number: \_\_\_\_\_

**Range #4 Qualification process:**

In order to qualify for range #4 use, members will need to demonstrate their ability to use a rifle of their choice in a precise manner.

**Please note that there is no extra cost for existing members to apply and qualify for the 400 yard range.**

Specific targets for the 100 and 200 yard ranges will be supplied by the club and left in designated areas/bin for applicants to pick up and shoot when they are at the club at their leisure.

**Pre-Qualification Criteria**

- Shoot a 5 shot group not exceeding 3MOA in size within the specified target at 100yards (this is roughly a 3” group at 100 yards)
- Shoot a 5 shot group not exceeding 3MOA in size within the specified target at 200yards (this is roughly a 6” group at 200 yards.)

To apply for 400 yard range qualification, please fill out the form above and submit it with:

- Your 100 yard target with the 5 shots taken. Please put your name, membership number and sign the target
- Your 200 yard target with the 5 shots taken. Please put your name, membership number and sign the target

Once we receive your application we will schedule qualification days for multiple people so as to maximize efficiency. (likely up to 20 people in one day). You will be contacted by email (or by phone if you don’t have an email address) to let you know of the date/time of your qualification. Expect to be at the club for a good portion of the day.

**Qualification Criteria**

On qualification day, we will take applicants to the 400 yard range so they can demonstrate their proficiency with their rifle

- Shoot a 5 shot group not exceeding 3MOA in size within a specified target area at 400yards. The Target will be a 12” gong which is roughly 3 MOA at 400 yards
- The group will need to be shot in 2 minutes or less.

Qualifications will be booked on a first come first serve basis, if you do not show up on your booked date you will go to the bottom of the list when rebooked.

Please note this is an application for a qualification, no instruction or coaching will be available as our goal is to qualify members in the most efficient manner possible.

Before attending your qualification session, please ensure you have:

- Zeroed your rifle
- Are familiar with your rifle, optic, and ammunition
- Have practiced a method to determine your bullet drop at various distances.

If you would like coaching or instruction on long range shooting, Rifles and Reels will make an effort to put together a course to teach people the basics of Long Range Shooting and Ballistics.

We have tried to make the simplest, most streamlined application process possible so that people can enjoy the range while still maintaining safety standards.

Our Goal with this process is to prevent people who are unfamiliar with rifle ballistics from injuring themselves or someone else and to prevent damage to the baffles and other property and to prevent ground strikes.
